During the course of the Fiscal Year (7/1/22 – 6/30/23), each of the courses above will impart two qualifications. One qualification imparted is the course completion qualification. The second qualification imparted is the CPTP Continuing Education qualification (designated on transcripts as CPTP Continuing Education FY 22 - 23). It is this qualification that is used to track compliance with the continuing education requirement. The continuing education qualification will only be imparted beginning July 1, 2022 through June 30, 2023. If the course is taken prior to July 1, 2022, the learner will only receive the course qualification and not the continuing education qualification. CPTP will not add continuing education qualifications for learners who completed the course prior to July 1, 2022.
